4.3. Bus Service Changes

Transportation Service have replied to the concerns raised in January (2.3.2). They apologise for the short notice to Community Councils and promise to do better. They explain some of the difficulty over (lack of) notices in bus stations, adding that Fife Council is taking responsibility for timetable information in St Andrews and will also be trying to expand the number and variety of outlets receiving notices. Similarly the logistics of updating notice boards - 4 staff members take 2.5 days to update all the boards in Fife. They are looking to improve this. Finally they confirm that there are post-mortem discussions underway with Stagecoach to avoid a repetition.

5. New Business

(New items of business should be passed to the Secretary in time for inclusion in the agenda otherwise they will be taken under 8. AOCB)

8. Any Other Competent Business

Appendix A - Minutes of GP Committee

10/2/00 39 Kilrymont Rd

Present: Archie Strachan, Murdo Macdonald, Pete Lindsay.

Apologies: Lindsay Murray, Ken Crichton.

Down Under: FGR

1. Civic Receptions

Having looked into the relevant guidelines from Fife Council and current practice there is no reason in principle why Community Council should not decide to honour visiting dignitaries with a civic reception or similar, to uphold the good name of St Andrews hospitality.

Obviously the decision of who should be so honoured and to what extent must be the decision

of Council.

Propose that a policy of undertaking a civic receptions when appropriate be adopted as a policy of Community Council.

2. Meeting Format

Discussed problems of meeting overrunning, due to the steady increase in business.

PL to prepare proposed amended standing orders on

- i) Presentations by members of the public - strict limits of time and debate, differentiate between invitees, pre-notified presentations and casual 'just turn up' appearances.
- ii) reports from committees - require them written, submitted to Sec for inclusion in agenda (which will have the advantage of including them in the CC archives). Exception for urgently required decisions by council - others put off until following month for written submission.

At meeting assume all CC members have *read* agenda - no more reading out of reports.

3. AOCB

- i) presentation to Andrew Neil, incoming Lord Rector of the university at the rectorial drag (12/2/00). PL has a spare arms scroll. MM to get tube etc.
- ii) discussed preparing a index of CC decisions and debates for better back reference.

Pete Lindsay

See Appendix I for further ideas under consideration.

Appendix B - Friend of St Andrews

Report of Meeting of *ad hoc* committee (D. Macdonald, C. Tero, K. Crichton and A. Strachan) assigned to consider and make recommendations on the 'Friend of St. Andrews' proposal.

The committee met on the 25th February 2000 and, after due consideration of the remit, now report as follows.

1.

The committee was in full agreement that some such honour should be instituted and, after considering several proposed titles (including 'Friend of St Andrews'), recommend that it be titled

- a) '**Honorary Citizen of the Royal Burgh of St. Andrews**' when bestowed on any non-resident of St. Andrews, and
- b) '**Honoured Citizen of the Royal Burgh of St. Andrews**' when bestowed on any resident of St. Andrews.

2. The committee was of the opinion that such an award should only be bestowed on **very worthy candidates** and then only on **rare occasions** so that the high status of the award may be maintained.

3. Bestowal of the award must have the approval of the majority at a full Council meeting.

4.

Recipients of the award should receive a suitably inscribed parchment and also perhaps a Coat of Arms medallion of some kind.

Archie Strachan

Archie Strachan, Treasurer

Appendix D - Coat-of-Arms Committee Report

At present we are still going through existing contracts to see if they are still required, and if not to see if we can find new outlets for these. We are investigating the possibility of raising finances for the period where contract have been in force, but monies have not been forthcoming as yet. Several manufacturers have been contacted and some have still to reply.

We are in process of setting up our first contract for the year 2000, with a company outside Perth, and once this has been finalised I can set it in front of you. As you may not be aware, costs will be incurred in achieving these contracts, *ie* travel, phone calls *etc.* A 6-monthly or annual account will be submitted for your approval.

There are manufacturers still producing coat of arms with the arms of the former burgh, and we are in the process of informing them that these are now not to be used, as instructed by Lord Lyon King of Arms in Edinburgh. We have in our possession a letter dated 4th May 1989 to this effect. We are in the process of instructing all these manufacturers that to use the relevant arms of their merchandise they must first have a contract with the St Andrews Community Council who are the registered owners of these arms.

Appendix E - Loches Alliance

Our association with Loches in Frances is progressing very well, with a very busy programme ahead. Our next visit is from the Loches Rugby Club on 2nd March, hosted for two days by Madras Rugby Club, with matches at their grounds.

At present we have an Art Exhibition of Lansyer paintings in the Crawford Centre, which has attracted a lot of interest (2026 visitors as at 29th February). This was officially opened by Frank Riddell, Chair, Community Council, in the presence of Mary Freeborn, Chair-Person, St Andrews-Loches Alliance, and Pascal du Brisay, Deputy Mayor of Loches, who replied with a brief resume of the artist and his works. The exhibition is on show for another few weeks and is certainly worth a visit.

Pascal has since sent his thanks to everyone for working so hard in achieving such a good relationship between the two towns.

As of 1st February 2000 the Alliance is officially registered with Fife Council External Relations Office (dealing with Community Grants Scheme) and with COSLA in Edinburgh (Convention of Scottish Local Authorities).

As COSLA have stated - "The European Commission can co-finance exchanges between citizens from towns that are twinning, or are running a twinning scheme - promoting events that bring peoples closer together and developing the European idea". This would appear to alleviate the problem of officially 'twinning' St Andrews and Loches.

Also we have applied to International Links Office in London and Brussels to be registered on their listings of exchanges within Europe.

1. Millennium Committee Photographs. By copy of this minute, we would like to request a

copy of all photographs, together with full title to use them, be given to this committee for inclusion in the Community Council Photographic Collection held on our behalf by the Preservation Trust Museum.

2. History Competition. This lapsed through lack of support a number of years ago, when two, then the next year, only one entry was received. Old correspondence indicated that two Quaichs had been donated for this competition. These I have now retrieved. It was decided that the donors Mr Mathew M Henderson and Mr Gordon Christie be approached, and asked if they would have any objection for them to be awarded, for any other competition for the youth of St Andrews.

3. 200 Club Request Chair's permission to hold the draw.

4. Meetings

Recreation Committee 07.02.00 19.00 hrs.

Street Fair 07.02.00 10.00 hrs

Appendix G - Health Education & Welfare report

1. Fife Council's (FC's) Sport and Recreation Strategy: Chris Young and I looked at it, passed it on to Joe Peterson before the last StACC meeting and asked him to pass it on to StACC's Recreation Committee, so they should be reporting on it at Monday's meeting

2. FC's letter about Respite Care: Think I passed it on to Joe Peterson at last months StACC meeting. It basically said they were going to be cutting down the number of places quite considerably. This worried me because I know of at least one person in her 90s who, after breaking a leg and spending a few weeks in Ninewells waiting for a bed in St. Andrews Memorial Hospital, is now stranded in Cameron, with far less chance of being visited by friends. She's hard of hearing and losing her sight but still a brilliant bridge player so she's bored stiff - unfortunate word! It also seems to make a mockery of the proposed increase in co-operation between the NHS and FC that was made so much of at the LHCC's Saturday seminar.

3. Toilets at the bus station: - Reply from the manager of the depot said I should write to their head office in Kirkcaldy so I have and am waiting for a reply.

Chris Lesurf

Appendix H - Millennium Committee Report

for 6/3/2000

1. Greyfriars Garden Site - efforts are continuing to find out the level of financial support which may be forthcoming from local sources. It is now being proposed to approach (among other bodies) the Common Good Fund.

2. Competition for Schools - the first stage of the two-stage project reported to the last meeting is now being proceeded with. Ms Lesurf has circulated a letter to head teachers to enquire whether their schools would be interested in participating in a competition on the lines stated.

Appendix I - Meeting Organisation

Areas under consideration:

1.1. Presentations by members of the public

Differentiate between:

Those on the agenda, invited speakers etc - say their piece, followed by questions (indeed even answers) from the meeting, if appropriate.

Casual - only heard on the vote of the meeting. If refused due to lack of time put on the top of the agenda for next month.

I would note that to turn away members of the public from addressing our meetings, even temporarily, is a very serious step to take.

1.2. Reports - officers and committees

These really should (a) in writing and (b) in the agenda so people can consider them before the meeting.

Assume that everyone has read the agenda papers! Do not read reports out if they are already printed only give verbal reports on urgent items. Proceed instead directly to

questions/debate/vote as necessary. Pass the rest to the Secretary for next month.

1.3. Papers circulated at the meeting should, practically, be for information and record not discussion. People don't have time to read them during the evening, their attention being wholly taken by the flow of the debate of course.

1.4. Repetition.

Another way of cutting back on the repetitious nature of our business would be the adoption of a rule forbidding repeated raising of the same item after CC has discussed/voted on it, for a period of X months - it is suggested in the Fife Council model constitution document I think. I appreciate that repetition can be a way to make a point, but perhaps there should be limits...

1.5. Guillotine

limit all debate to a maximum period of, say, 15 minutes. Have certain items of business occur at a fixed time. This would be ideal for the 200 Club draw which must be taken during the monthly meeting - 8:10pm after the break perhaps?

2. In the meantime

We actually try to stick to the current Standing Orders this month.

Secretary's Additions - March

(Circulated at meeting)

Pier Project

- Update from Nan Taylor: fund now stands at £9,000, still looking to break £10,000 by Easter.

West Port Saltire - is now light blue, as we requested.
