Appendix B : Letter from Parent Voice with request to debate motion on Pipeland and working together

We would ask that St Andrews Community Council consider ways in which the divisions in the town over the siting of the New Madras College can be healed, now that the extensive period of local, national and legal consultation is drawing to a close.

As we see it, there is, after all, the common aim of the much needed prize of a new secondary school, which we are sure will help to continue the great success story that is Madras College in St Andrews. We have drafted the following motion which we would ask be debated at the next Community Council meeting.

“ As the CC responsible for St Andrews we wish to find ways for all parties to come together and support the decision on the building of the new Madras, regardless of the outcome of the current legal challenge”.

We recognise that whatever the decision, some strong views will remain but with dialogue and common purpose, we believe these concerns can be overcome and that the Community Council is uniquely placed to lead this process.

We would be prepared to contribute to the debate if invited to do so by the Council.

Thank you for considering this matter.
